Health Insurance Plans Accepted at Scripps Coastal Medical Center

If you are looking for health insurance through Covered California, the state's health insurance exchange, Scripps Coastal Medical Center doctors are in-network providers on select plans.

Scripps Coastal physicians are also in-network providers through many health plans not offered through the exchange. Prior to making an appointment, check with your health plan or the doctor's office to make sure a physician or hospital is a participating provider. Some contracted health plans have narrow network options in which Scripps Coastal may not participate. This means Scripps Coastal would be considered out of network which will likely result in higher out of pocket costs to you. Please check your plan's participating provider panel for confirmation.
